Annual Scrutiny Plan

The Interim Executive members are being asked to note the Annual Scrutiny Plan agreed by the Health Overview and Scrutiny Committee (OSC) and to be informed of the following:

- LINK IE members are reminded that the OSC is statutorily obliged to consider whether to undertake scrutiny on any items that the LINK refers to it.
- The OSC is keen to co-operate with the LINK on the scrutiny items it will be addressing in the current year and these are listed in paragraphs 5 and 6. Particular attention should be paid to the items in paragraph 6, which are new topics the Committee has agreed to address over the coming year, and are likely to result in more substantial scrutiny reports.

In the past there were a number of items on which the OSC worked in partnership with the PPI Fora, the general division of labour being that Council officers undertook analysis of policy documents and performance data, whilst the PPI Fora provided their observations of user experience. Several of the items listed in paragraph 6 would seem appropriate for this approach, and the LINK IE members are being asked whether there is an interest in working on them.
