

Get involved in Health!

Wandsworth Teaching PCT is setting up a Patients' Panel to hear how you feel about the services we provide in the community.

- Are you able to find the services that you need?
- Are you happy with the quality of care that you receive?

The Patient Panel gives you the chance to make the services you care about better.

If you are interested in any of our community services, such as health visitors or community hospitals, this is your chance to let us know what you think of them. We will listen to your views and work together to improve the way that we care for people like you!

Your opinion can make a real change, and you can get involved as much or as little as you want. You will learn how the NHS works at a local level through the “hands-on” experience of making decisions on how to improve our services. Your travel expenses will be paid, and you will receive full support to share your experiences.

The Panel will soon start meeting regularly, and we are looking for people like you to tell us what you think!

We look forward to hearing from you – this is your chance to make a real difference to the services that are important to you, while gaining new skills and meeting new people!

To get involved, please contact (by 23rd Jan 09):
